ABOUT AANGAN

An aangan is the courtyard at the heart of a home. We design around how you actually live.

We are a 60-person studio in Pune. Every project is designed and executed by our own team and our own network of contractors, so the drawings and the finished room match.

We take on full homes, a floor or a few rooms, and offices up to about 3,000 sq ft. Every engagement includes execution: we don't do advice-only visits.

What we do

- Space planning and layout
- Kitchens and wardrobes
- Materials: flooring, walls, ceilings
- Lighting design
- Custom and sourced furniture
- Execution supervision

How a project runs

1. **Free consultation.**
   Your designer visits or calls, understands the brief and walks you through pricing for your site and choices.
2. **Design, 3-4 weeks.**
   Layouts, material boards and 3D views, revised with you.
3. **Execution, 8-16 weeks.**
   Our contractors build it; your designer supervises on site.
4. **Handover.**
   A walkthrough, snag list closed, and care notes for every finish.

Planning ahead: we need at least 6 weeks before anything must be ready, so book your consultation early.
